Module Project on next page

Dream Weaver Module Project Rubric (Value /40)

Topic of website: _____

IMAGES
Index
Page 1
Page 2

7 pages in total: Index, About us, 4 related content pages, and a reference page.
(About us is about the owners of the website)

Folder set up: Set up your folder like the image to the left – a final project folder that contains an image folder and your website pages.

All files are saved in a folder in your student drive and saved as Dream Weaver Project   ____/5
and the Folder is to contain a word document showing a drawing (outline) of your website
– like a storyboard.

Home page is saved as Index with links to all other pages (6) in a Navigation Bar as well as in
the Main Block of the webpage.   ____/5

Your references page contains all information and links used in your website.   ____/10

 Example for references: (2 marks for each page formatted like below)
   Index Page
       Amsterdam Image: https://amsterdamtourist.com, retrieved August 5, 2015.
       Background image: Smiles.jpg, http://iconsrus.com, retrieved August 5, 2015.
       Information about Amsterdam: https://amsterdamtourist.com, retrieved August 5, 2015.
   Page 2
       Lieden image: https://Liedentourist.com, retrieved August 5, 2015.
   Page 3   ..Etcetera…

Each page contains pictures, text, and links
   A.   Each page has links to all the other pages in your website.
   B.   There are at least 5 links to outside websites (in a list, and the links work)
   C.   Each page has pictures. Pictures need to be placed in various places in your page,
        They may need to be cropped for better viewing. Text is wrapped around some images
        and text color and size is used to showcase the information on the site.   ____/10

One of your pages will contain a table with text and images contained in the table.   ____/5
The table will be formatted for color.

All pages will have appealing backgrounds. (at least 1 page has a background image).   ____/5

No distracting images will be tiled across the page. (-5 for each occurrence)   ____

There are to be no spelling and grammar mistakes on the website.   ____
(-2 points for each occurrence)

                                                        Total Project mark   ____/40

Web Design Storyboard Template

Use this template as a guide to create your own storyboard. You will create a planned page for every page of your site.

Title: _____

Heading: _____

File Name: _____

Purpose of the page:

_____

_____

Main Body of Text:

_____
_____
_____
_____
_____

Sub Headings:

Proposed Graphics: (Include thumbnails of your proposed images here)

Proposed Links:

Use this portion of your storyboard to plan the design of your page. You must be consistent with your design from page to page. This will prevent the user from getting confused. This design is a basic standard. You are encouraged to be creative but consistent in your own personal design.

Use basic shapes in Word to outline your basic style for each page of your site.
